Do you have any athletic abilities? Yes

List of athletic abilities? lift weights 4x a week, varsity soccer (in school)

What is your current occupation? actor

Alivia

University of California Los Angeles (UCLA)

Please describe your personality My mother describes me as perceptive, funny, and kind. I love to laugh and try things I've never done before. I think of myself as a very curious, creative person. I'm deeply interested in people, tend to be very analytical/inquisitive. Most people who know me might think of me as outgoing however as a child, I was most comfortable reading or drawing alone. I tend to be a little more on the introverted side but I love people and especially cherish my closest friends. I'm happiest when I'm in the middle of a creative project.

Why do you want to become a donor? One of my closest friends told me how positive an experience she had, being a donor. I think it's a beautiful way to not only make money, but also assist families who otherwise wouldn't be able to have a child. I think it's an honorable thing to do. Being a donor is a big responsibility. It requires going to several doctor's appointments, taking injections and having minor out-patient surgery. Do you feel prepared to commit to this process? Yes

Are you open to being matched with all types of families regardless of sexual preference, marital status, ethnicity or sex of the egg recipient? Yes

If they request it, are you willing to meet your intended parents? Yes

Are you open to meeting the child in the future if that is requested? Yes

Are you open to exchanging future contact information with your intended Parents(s)? Yes Where did you grow up? I grew up in a military family so we moved very frequently: Texas, North Carolina, Virginia, Germany, and Alaska are where I spent my childhood

Do you have any siblings? Yes

Do you have any children? No

Any past or current medical problems (including surgeries, accidents, birth defects, depression, etc.)? Yes

List your medical problems As a baby, I had salmonella poisoning and developed sepsis which resulted in my being allergic to all forms of penicillin

Do you drink alcohol? Yes

How many drinks per week? 1

Have you ever been pregnant? No

Have you ever been a donor before? No

Are you currently taking any medication (for physical or mental health)? No

Are you taking any recreational drugs? No

Do you smoke? No

Are your menstrual cycles regular? Yes
