Please describe your personality.

My name is Giovana and the best words I can use to describe myself is friendly, dreamer, organized and generous. I consider myself a person of faith and I feel good about helping anyone around me in the best way that I can. My friends usually say that I'm very funny and a very pleasant company, so I believe these are some of my personal qualities too. And I'm super organized, which is both quality and a defect, but that's ok, I handle it. Hope we meet soon.

Do you wear or have you worn eyeglasses? Yes

At what age did you start wearing them? 6

Have you worn braces? Yes

Why do you want to become a donor?

I am at health school, and I know the troubles a woman can have in the process of having a baby, and I think that if I can I need to help. They deserve this shot, and if I can help the realize their dreams, I want to. And is the same thinking for couples, because doesn't matter who is going to be the father or mother, the child just needs love, and love its becoming something that is difficult to find in the world. We need to help the world be good again and spread love with attitudes like this.

Being a donor is a big responsibility. It requires going to several doctor's appointments, taking injections, and having minor out-patient surgery. Do you feel prepared to commit to this process? Yes
