Please describe your personality

I consider myself to be infectiously bubbly and always super optimistic. I'm hard working, witty, very communicative and always lead with kindness.

I am a creative soul and like to problem solve by thinking outside of the box. My creativity shines most when I'm cooking in the kitchen, coming up with a creative marketing strategy, and standing in front of the camera for modeling and acting. Traveling lights my soul on fire and I love to experience new cultures and food. I am athletic and always persevere despite challenges. It has always been very important to me to take care of my mind and body, experience life to the fullest, and live a life that I am proud of.

I love connecting with people and hearing their stories, as I am a natural caretaker. My husband describes me as resilient, empathetic, compassionate and intelligent. My fiery personality and natural gusto for life has allowed me to find success and tangible happiness in my everyday life.

Openness

Are you open to being matched with all types of families regardless of sexual preference, marital status, ethnicity or sex of the egg recipient?

Yes

Please explain why

I think that stereotypes and prejudices dis-regulate our ability to connect as humans. Regardless of sexual preference, marital status, ethnicity or sex, what matters most to me is that the baby is healthy and in a home full of love, that is all I care about.
