Education & Career

Highest Level of Education	Master's degree / Law degree
Degree	Master's in Family Law
University	Federal University / INSPER
Current Work	Relationship Officer in a Family Law Office
Prior Work	Previously a Tax Attorney

- Giada's legal education and professional experience add a strong intellectual and professional dimension to her donor profile.
- Her background may be especially appealing to intended parents seeking a donor who is highly educated, thoughtful, disciplined, and career-oriented.
- Her interest in family law also gives her a meaningful connection to family-building and the emotional importance of helping others create a family.

Personality, Interests & Lifestyle

Giada describes herself as someone who loves art history, museums, galleries, culture, reading, travel, hiking, and nature. She enjoys being around people, having meaningful conversations, and continuing to learn new concepts. She describes herself as empathetic and intellectually curious, with a passion for history and lifelong learning.

- Enjoys art history, museums, galleries, and cultural experiences.
- Loves reading, traveling, hiking, and spending time in nature.
- Recently traveled to South Africa and loved the wildlife, plants, and culture.
- Values learning and believes it helps keep her mind sharp.
- Speaks Portuguese, English, German, and some Spanish.

Athletic & Wellness Profile

- Practices Pilates four times per week.
- Ran in college.
- Played tennis during adolescence.
- Swam as a child.
- Reports no smoking, no recreational drug use, and only occasional social alcohol use.

Motivation to Donate

Giada's motivation is thoughtful and emotionally grounded. After learning more about egg donation, she reflected on the joy that children have brought to her sister's family and on friends who have struggled with infertility. She feels that, if she is able to help someone build a family, it would be a meaningful and rewarding opportunity.

- Understands that donation is a serious commitment involving appointments, injections, and a minor outpatient procedure.
- States that she feels prepared to commit to the process.
- Is open to being matched with all types of families regardless of sexual preference, marital status, ethnicity, or sex of the recipient.
- Is willing to meet intended parents if requested.
- Is open to meeting the child in the future if requested by the family.
- Is open to exchanging future contact information with intended parents if necessary.

Personal Health History

Maternal Grandfather	Unknown information; deceased.

Reported Family Medical History

- No reported cancer.
- No reported autism / Asperger's.
- No reported physical malformations, paralysis, or crippling disorders.
- No reported alcohol or drug addiction.
- No reported cystic fibrosis, sickle cell anemia, lupus, blood diseases, kidney disease, or diabetes.
- No reported thyroid issues, learning disabilities, seizures, epilepsy, depression, panic attacks, schizophrenia, bipolar disorder, ADD, or ADHD.
- No reported miscarriages, stillbirths, neonatal deaths, or reproductive problems such as endometriosis, hysterectomies, or late-term miscarriages.
- Reported family items: paternal grandmother had high blood pressure beginning later in life; mother has seasonal allergies; father began wearing reading glasses in his 40s.

Best-Fit Intended Parent Profile

- Intended parents seeking a beautiful, elegant, and highly educated first-time donor.
- Families who value European, Italian, Brazilian, or multicultural heritage.
- Recipients who appreciate a donor with a legal/professional background, multilingual ability, and strong intellectual interests.
- Clients looking for a donor with a warm, empathetic personality and openness to future contact if requested.

Agency Positioning Notes

- Giada should be presented as a high-end, polished donor with strong visual appeal and a meaningful educational/professional story.
- Her photos are a strong asset: current images show elegance and beauty, family photos show resemblance, and childhood photos help intended parents imagine early-life traits.
- Because she is a first-time donor, recommended next steps include AMH, AFC, clinic review, genetic carrier screening, and confirmation of availability for cycle timing.
- Her profile is likely to appeal to boutique, international, NYC, LA, European, Brazilian, and Italian-focused intended parents.
