Motivation to Donate**Why do you want to become a donor?**

I want to become an egg donor because I believe it's an incredible opportunity to help someone fulfill their dream of building a family. My mom experienced difficulties when trying to have her first child, so I've seen how emotional and challenging that journey can be. Knowing that I'm healthy and have the ability to help someone else experience the joy of becoming a parent makes this opportunity very meaningful to me. If I can make a positive difference in a family's life, I would be truly honored to do so.

Being a donor is a big responsibility. It requires going to several doctor's appointments, taking injections and having minor out-patient surgery. Do you feel prepared to commit to this process?

Yes

Openness

Are you open to being matched with all types of families regardless of sexual preference, marital status, ethnicity or sex of the egg recipient?

Yes - I believe there is no single definition of what makes a family. Families come in many different forms, and what truly matters is the love, care, and commitment they have for one another. Every child deserves to grow up in a loving and supportive home, and I would be honored to help make that possible.
